PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This installation (Figure 1) is located at Kamenets-Podolskiy, USSR (48-41N 026-35E). The installation (Figures 2 and 3) covers approximately 176 acres and includes an administrative area with five probable administration buildings and 11 storage buildings; an open storage area

containing nine storage buildings, three of which are located within a fenced area; a general storage area containing 24 storage buildings in a secured area; and a receiving and shipping area with five probable administration buildings and 14 storage buildings.

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is served by a rail line which extends generally north to south.

Road Service

The main road service to the installation also extends north to south and appears to be of composition gravel/crushed rock with two lanes.

General Storage Areas

Area E1 (Figure 3) has 11 storage buildings

and five probable administration buildings.

Area E2 has nine storage buildings, three within a partially fenced area for open storage.

Area E3 is secured and contains 24 storage buildings.

Area E4 is a receiving and shipping area and contains 14 storage buildings and five probable administration buildings.
